COSY UP FOR WINTER 2021

Welcome to our latest brochure, celebrating the many reasons to love the colder months, from enjoying warming, spiced soothies™ on Bonfire night, through to sharing scaring on Halloween. As we shift from blended to brewed we also share key trends to make the most of from now through to the new year.

Supporting local business has grown in importance during the last year, as has being part of the community for those businesses. As we move to winter customers will continue to seek out safe and familiar venues. Sweetbird, Zuma and Cosy offer hundreds of products, and even more flavour combinations ensuring fresh menus for those returning and loyal customers.

As ever, we love to see what creations our customers are serving, so share with us on social media

Recipes

All the recipes in this book are based on using a 12oz cup, unless otherwise stated. All the products are Sweetbird, Zuma and Cosy, we just don't repeat it every time as this would get very repetitive. Please ask your supplier for the relevant scoop for the powdered products. We offer portion control pumps for syrups, purées, liquid frappé and sauces too. If you see an (sf) next to a product listing, it means we have sugar-free versions available too.

VE for vegan

83% of Sweetbird and Zuma products are approved by The Vegan Society. Cosy is ALL vegan, and organic. If you see a (ve) by the recipe, it means all the products used are vegan approved, so can be sold as vegan when made with non-dairy milk. Be sure to only use vegan whipped cream on these recipes too. If not one of the ingredients contains milk so cannot be sold as vegan, even when made with non-dairy milk. Our non-vegan products are generally approved by The Vegetarian Society.

Live online training

Do you know we run a series of Virtual Beyond the Bean Bootcamps twice a year to showcase the latest recipes and trends of the season. Follow us on social and sign up for our newsletter at beyondthebean.com to hear about all our events and to book your place.

Watch and learn on YouTube

If you see a play button near a recipe you can watch the recipe (or one very similar) at our YouTube channel. Simply click on the button to be taken to the videos - or click on the icon here to be taken to the channel. Whilst the recipes in the videos may not be exactly the same ingredients, the methods are the same - so a honeycomb latte uses the same method as a hazelnut latte etc

Want to know more?

We hope this book inspires you to create wonderful drinks and collate interesting menus. For in-depth information on any of the products showcased here visit the brand websites where you will also find downloadable point of sale material to help promote the finished drinks in-store. Alternatively, speak to your regular supplier of Sweetbird, Zuma, Cosy and Blendtec or call us and we will help find your nearest stockist. Our contact details are on the back cover.

WHO ARE BEYOND THE BEAN?

Founded in 1997 we are the people who create and make Sweetbird, Zuma, and Cosy. We're also the UK partner for Blendtec blenders. Haven't heard of us? That's because we are a wholesale company; our customers are coffee roasters, high street chains, and online retailers. We sell by the pallet or container, so our customers can sell by the case, and we can focus on developing new and exciting products. If you like what you see in this brochure but are not sure where to source the products, call us on +44 (0)117 953 3522 at our HQ in Bristol, (where we make Sweetbird syrups) and we will put you in touch with the best suited supplier in your local area. We are usually at industry events such as the SCA World of Coffee and London Coffee Festival, so be sure to pop by and say hello!

Where are all the products?

With over 100 products in the ranges we don't list them all here, we'd rather use the space for recipes and inspiration for each season. We do have a full product brochure which can be viewed online by scanning this QR code. Or email us at sales@beyondthebean.com and we will email one over to you.

Keeping abreast of the latest trends isn't always a top priority when faced with the many operational challenges of running a coffee shop. So we're here to help with a round up of the key trends to consider for winter 2021/22.

forward THINKING

People & Planet

We first mentioned the 'Flexitarian' diet in summer 2018; people choosing to eat less meat, without making a commitment to be fully vegetarian. As we head into 2022 a new trend is emerging, the 'Climatarian' choosing what to eat based on the impact to the environment. This is coupled with a rise in LOHAS (Lifestyles of Health and Sustainability) - people whose lifestyle is focused on their health and the health of the planet. Mindful consumption and new environmental thriftiness; a culture of 'make do and mend' rather than mass consumerism is growing. Consumers care more than ever about the provenance of their purchases, be that for the home, or the food and drink they enjoy out of home. Offering customers locally sourced products, or showing how you care for the environment will increase loyalty and of course help towards our collective efforts to protect the planet. Choosing Sweetbird Iced Tea or Lemonade syrups rather than stocking single use, ready to drink versions is an example of this in practise.

Wellness & Function

In the UK, the health and wellness industry was worth £23 billion in 2020* and will only continue to grow with

health being at the forefront of people's minds. More than ever consumers are searching for food and drinks with function and health benefits. The rise of products with added protein, vitamins, and now collagen are key examples of this. A kinder attitude to ourselves, and the growth in awareness of mental health is leading to an emerging anti-diet and body positivity culture too. Awareness of the link between gut and mental health will also continue to grow, with fermented foods including sauerkraut, kimchi, miso and kombucha leading the way.

NoLow

The rise of interest in health and well-being is reflected in the increase in demand for no and low alcohol drinks. The flexitarian attitude is applied here - not abstaining from alcohol entirely, but carefully considering when to enjoy it. This is coupled with an increase in functional drinks; hard seltzers, waters with added vitamins or proteins, also tying in with the desire for function as well as taste. Take a look at page 54 for our seasonal mocktail recipes.

Quality at Home

Spending so much time in home during 2020 has led to a new appreciation for entertaining and cooking at home. It offers

a safe environment and the opportunity to spend more time cooking, and more attention to what is being eaten. Whilst consumers are more careful with their money, they are giving more consideration to what it's spent on, choosing better quality food and drink; looping back to the health and wellness trend. Cooking at home also meets environmental concerns, creating less waste by using the same ingredients across many dishes and buying local produce. The increase in the 'at home barista' and investment in coffee kit for the home can be taken advantage of by offering house blends to take home, and new Sweetbird at Home syrups (see page 40).

Nostalgia 2.0

The Danish culture of Hygge (pronounced "hoo-gah") went global in 2018. Part of seeking out comfort and cosiness after a tumultuous 2020 is a fondness for the past, for simpler times, for tastes of childhood and flavours of the familiar. This links to the increase in home cooking too - classic dishes such as shepherd's pie, roast dinners and puddings. Flavours to be added to drinks menus include rhubarb and custard, gingerbread, mint choc chip, together with all the berry combinations and handmade lemonade.

SPICED ORANGE HOT CHOCOLATE (VE)

1 scoop Dark
hot chocolate

1 mini scoop
Turmeric powder

Steamed milk

Cold Foam

Gold Dust

Combine powders with a splash of hot water. Mix to a smooth paste. Top with steamed milk, stirring as you pour. Dust with gold dust. Blend skimmed milk on small milkshake setting in cold foam jug. Spoon onto drink. Finish with a light dust of turmeric powder. Ta dah!

Little Luxuries & Experiences

Whilst consumers may continue to play it safe, both financially and for entertainment, one theory that is apparent is 'The Lipstick Effect'. Although people may not be making big ticket purchases like cars when facing an economic troubles or recession, consumers are more willing to buy less costly luxury goods. For example, a fancy lipstick, or in the case of hospitality, the little add ons that offer extra wow, such as extra toppings or luxury hot chocolates. The little luxuries may be small, but they are still a treat all the same. Hand-in-hand with this trend is the emergence of consumers seeking out enhanced experiences, particularly apparent in retail as high street stores try to lure customers back with experiences rather than just shopping. To bring this trend to life, rather than simply serving hot chocolates offer the chance to customise their own recipe, to join a barista training evening or host talks about coffee. Enhanced experiences, combined with a flourish of luxury will go a long way in cementing your place in the community, and the loyalty of customers wanting to support local businesses.

You'll see these icons throughout the brochure, showing how these trends can easily be incorporated into your winter menu

WELCOME to Zuma

A TASTE OF ZUMA

1. Classic Hot Chocolate (ve) ▶

1. Combine 1 scoop hot chocolate with a splash of hot water and mix to a smooth paste
2. Add steamed milk, stirring as you pour
3. Sprinkle with Gold Dust for added pizzazz

2. Everyday Chai (ve) ▶

1. Put 1 scoop into cup
2. Fill 1/3 with hot water and mix into a smooth paste
3. Top up with steamed milk

3. Saucy Chocolate Milkshake (ve)

1. Half fill glass with ice
2. Half fill with milk (to 1cm below the top)
3. Pour contents into blender jug
4. Add 2 pumps of dark chocolate sauce and 1/2 scoop of Vanilla Bean frappé
5. Put the lid on tightly then blend until smooth
6. Serve in a milkshake glass topped with whipped cream and a drizzle of sauce

4. Pure Powder Latte (ve)

1. Add 1-2 mini scoops to a splash of hot water and stir to a paste
2. Top with steamed milk of your choice

HELPFUL HINT:

Use this method for any Zuma plant based powders. Add more or less powder to suit your taste.

  
/zumadrinks

From dark, rich hot chocolates and sauces, to spicy chai and plant powders, Zuma easily takes winter menus beyond the everyday to the memorable.

Since 1997 and the introduction of Zuma Original hot chocolate the collection has grown to now include four categories; hot chocolate, chai, sauce and plant powders. The latest addition, plant powders, offering a sense of well-being to menus, and of course, a pop of instagram worthy colour.

As we move through 2021 our collection stays true to the same ethos as when we first launched - keeping the ingredients as clean as possible, and only using what is really necessary. Compare our hot chocolate powder ingredients with others on the market to see the difference.

Picking a few choice products to be used across multiple drinks is key to good stock management and streamlining operations and good for the planet. Zuma products can be used in many different ways - here are some of our favourite cheats...

Beetroot powder The darling of instagram this ruby red powder can go way beyond the pinker than pink latte. Add to a hot berry soothie™ for added earthiness or to Sweetbird Raspberry & Pomegranate Lemonade for a unique house special.

Spiced chai Soothing and spicy, Zuma Spiced Chai is the perfect balance with steamed milk (we really like it paired with coconut milk). It can also be added to frappés too - just half a scoop with vanilla bean frappé for a touch of spice. Or add a shot of espresso for a dirty chai.

Gold dust As the saying goes, Gold Dust is not just for Christmas... keep it on hand for Valentine's and St Patrick's Day - and to give your customers a surprise royal treatment on their birthdays.

HOT CHOCOLATE

every which way

NAME YOUR FLAVOUR

Zuma and Sweetbird go hand-in-hand when it comes to creating hundreds of recipes. Zuma Hot Chocolates can be flavoured in different ways by simply adding:

- 2 pumps purée
- 2 pumps syrup
- 1 mini scoop plant powder
- 1 pump sauce

Featured drinks:
Zuma Original with
marshmallow cold foam (v)
Coconut Dream Hot Chocolate (ve)

Nothing says winter menu quite like hot chocolate; plain, flavoured, topped and dressed, combine Zuma and Sweetbird for chocolates that are all about the extra.

Zuma Original is just that, the original and first hot chocolate we created back in 1997. Our everyday chocolate for everyone, Zuma Original is our classic hot chocolate. It's a blend of 25% West African cocoa and sugar, it's smooth and sweet – like a top-quality milk chocolate bar. Because of its smooth and mild taste it pairs well with nut and confectionery flavours. Add two pumps of peanut butter or butterscotch syrup to complement the chocolate notes perfectly.

For a darker, richer chocolate experience try Zuma Dark, rich and sophisticated with the perfect bitter balance. Zuma Dark is made with 33% West African cocoa. You could describe its style as European - expect an intense chocolate taste.

Both Original and Dark are free from artificial colours, flavours or preservatives and are approved by The Vegan Society. These chocolates are perfect for customers looking for clean, uncomplicated products.

WHICH & WHY?

Zuma caters to all tastes, with various cocoa contents - which is your chocolate of choice?

Original - 25%

Our every day chocolate. if you are choosing only one chocolate powder this is your go to.

Dark - 33%

Darker, richer than Original for a more European style chocolate experience.

Fairtrade Dark - 33%

As above, but with a fair price for farmers.

Thick - 25%

Just incredible, thickens as it steams. Introduce as a guest chocolate or use for seasonal specials. Works a treat with cherry and orange syrups.

White

Mellow, milky and comforting, the hot chocolate customers didn't know they needed in their lives.

Recipe Focus

Fudge Brownie or Coconut Hot Chocolate (ve)

- 1 scoop Original hot chocolate
 - 2 pumps Fudge or Coconut syrup
 - Steamed milk
1. Combine hot chocolate with a splash of hot water
 2. Add syrup and mix to a smooth paste
 3. Top up with steamed milk, stirring as you pour
 4. Top with cream/cold foam and coconut or fudge pieces.

HELPFUL HINT

Rather than flavouring the hot chocolate an alternative is to add syrup to the cream or cold foam to top the drink. Coconut cream is delicious, or add chocolate sauce or syrup to the cream to top the Fudge Brownie hot chocolate.

ZUMA®

ORGANIC
Hot chocolate

40% ORGANIC HOT CHOCOLATE

Zuma Organic is a blend made with 40% organic cocoa and sugar, nothing else.

No artificial colours, preservatives or colours and vegan approved. This chocolate partners well with our organic protein powder, creating a Super Hot Chocolate. See page 20 for details.

40%
COCOA

ONLY ORGANIC

Remember, if you are serving Zuma Organic as organic on your menu, the milk used, whether dairy or not, needs to be organic too.

FEATURED RECIPE

Red Velvet Hot Chocolate (ve)

1 scoop hot chocolate
1 mini scoop Beetroot powder
Organic steamed milk

Combine hot chocolate and beetroot in a cup. Add a splash of hot water and mix into a smooth paste. Add steamed milk, stirring as you pour. Lightly dust with beetroot powder to finish.

Praline Mocha (ve)

- Double espresso
- 1 scoop Fairtrade Dark hot chocolate
- 1 pump Hazelnut syrup
- 1 pump Almond syrup
- Steamed milk
- Hot chocolate shaker

1. Combine the espresso, hot chocolate and syrup in a cup
2. Mix to a smooth paste
3. Top up with steamed milk, stirring as you pour
4. Dust with chocolate shaker

St Patrick's Pot of Gold Chocolate

- 1 scoop hot chocolate
- 2 pumps Irish Cream syrup
- Steamed milk

1. Combine hot chocolate with a splash of hot water
2. Add syrup and mix to a smooth paste
3. Top up with steamed milk, stirring as you pour

Choosing an ethically sourced hot chocolate shows customers you care about more than profits and helps support cocoa producing countries too.

WITH LOVE

from Zuma

As with coffee, customers now expect quality when they order a hot chocolate. Take as much care choosing chocolate as you do coffee beans; your customers, and profits, will thank you for it.

HOW TO MAKE ZUMA HOT CHOCOLATE

Use this simple method to make Zuma Original, Dark, Fairtrade Dark and White Hot Chocolates. The method for our rich Thick Chocolate can be found on the next page.

1. Put 1 scoop (28g) Zuma Hot Chocolate into a 12oz cup

2. Add a splash of hot water and mix into a smooth paste

3. Add steamed milk, stirring as you pour

[@zumadrinks](#)

100% FAIRTRADE DARK

Dark and smooth with fairness for farmers.

Dark and smooth with the perfect bitter balance this dark hot chocolate is made with 33% West African cocoa. It is 100% Fairtrade which means we can guarantee the farmers and workers benefit from fair prices, decent working conditions and good terms of trade.

something SPECIAL

WELCOME GUESTS

Hot chocolate comes in many varieties, as reflected in the Zuma collection. Once you've chosen an every day chocolate, consider adding a limited edition chocolate. Promote the blend as a guest chocolate before switching to the next. Ask customers to vote on their favourite then introduce the winner back 'by popular demand'.

These two extra special chocolates from Zuma, White and Thick are ideal to use for just this kind of promotion. All free from artificial colours, flavours and preservatives. White is approved by The Vegetarian Society, whilst Thick is vegan approved.

ZUMA®

ZUMA WHITE Hot Chocolate

Zuma White Hot Chocolate might not be chocolate (as we know it), but it's equally satisfying. Mellow, milky and comforting, it's made with a blend of cocoa butter and milk powders – not cocoa solids, which makes chocolate brown, so there's no bitterness. Great just as it is, or with a shot of Sweetbird syrup such as gingerbread or speculoos.

All White Now...

We love Zuma White Hot Chocolate on its own, truly comforting it makes the perfect nightcap just before bed too. We also love it paired with other flavours. Our top picks are: Salted Caramel (sf), Chai, Toasted Marshmallow, Gingerbread (sf), Coconut, Raspberry, Toffee Nut, Peanut Butter, Strawberry and Speculoos. With over 50 syrups in the Sweetbird collection what will your favourite be?

ZUMA THICK Hot Chocolate

Zuma Thick Hot Chocolate, made with 25% West African cocoa, is our Spanish-style hot chocolate, extremely thick and great for dipping. Steam it with milk to make it thick, then serve it short. Drink, sip or dip with churros or biscotti, add orange or hazelnut syrup for a special, or a double espresso for a delicious dark mocha shot.

The long and short of it....

Zuma Thick is as versatile as it is rich. To serve it in its natural state, like a Spanish hot chocolate for dipping, make it with 100ml of cold milk, add the chocolate powder then steam until it thickens. Be sure to wipe the steam wand and give it an extra burst of steam once you've made this - we know machine manufacturers don't approve of this method! The more steam the gooier the chocolate. Adding extra chocolate and less milk makes a super thick sauce, just perfect for dipping.

PURE PLANT POWER

nature's boost

ORGANIC SUPER HOT CHOCOLATE (VE)

- 1 scoop Original hot chocolate
- Steamed organic oat milk
- 2 mini scoops Protein powder
- Combine powders with a splash of hot water
- Mix to a smooth paste
- Add steamed milk, stirring as you pour
- (Works well with hazelnut or almond syrup too)

Zuma* PROTEIN POWDER

A carefully-blended mix of plant-based protein offering a deep malty taste Zuma Protein powder is a clean mix of cocoa, maca and hemp. It contains 32g protein per 100g, is high in fibre and has no added sugar. It can be enjoyed with any steamed milk as a 'super' hot chocolate or added to hot and cold drinks for a protein boost.

Zuma* BEETROOT POWDER

Rich earthy flavour with a vibrant colour beetroot powder is made from 100% beetroot. With its rich earthy flavour and vibrant colour our beetroot powder is the key ingredient to make beetroot lattes, red velvet hot chocolates, smoothies and red velvet cakes.

Zuma* MATCHA POWDER

Zuma finely ground matcha powder is made from specially grown and processed green tea. High in fibre and protein, nothing else has been added in or taken away. It has a fresh, grassy flavour and is the purest way to get your green tea boost in a latte, smoothie or hot chocolate.

The Zuma collection of Pure Powders offer bright and easy plant based drinks with minimal ingredients, and minimal effort.

We'll never be sure which came first, Instagram, bright red beetroot and grass green matcha lattes, but the popularity of both seems to have grown hand in hand. The Pure Powder collection from Zuma includes both of these, so get your camera ready for some insta ready menu creations. The adaptogens, (meaning any various natural substances used in herbal medicine to normalise and regulate the systems of the body) add plant based goodness to any menu, with matcha and turmeric (see the next page) now appearing as frequently as hot chocolate all year long.

Beetroot & Berry Soothie™ (ve)

- 50ml Raspberry & Blackcurrant smoothie
 - 1 mini scoop Beetroot powder
 - Hot water
1. Pour 50ml smoothie into cup
 2. Add beetroot and stir until powder has dissolved
 3. Top up with hot water then stir
 4. Drop in a few fresh raspberries or a cinnamon stick for added appeal

Recipes

Mint Matcha Latte (ve)

- 1 mini scoop Matcha plus more for dusting
 - 2 pumps Mint syrup
 - Steamed soya milk
1. Add powder to cup with a splash of hot water
 2. Mix to a smooth paste
 3. Top up with steamed milk, stirring as you pour

While the EU and UK agreed equivalence on Organic agriculture following BREXIT, this only applied to organic products that are of UK origin. We source, pack and import our Zuma Matcha, Beetroot, Turmeric and Protein powders from a third country and as such it isn't considered of UK origin and cannot be re-exported to the EU certified as Organic. Due to this, our Zuma Matcha, Beetroot, Turmeric and Protein powders are now not certified organic, but the product itself has not changed. Sorry about the confusion.

ANY PLANT POWDER LATTE

1. Add powder to 12oz cup with a splash of hot water (see below for number of mini scoops)
2. Mix into a paste
3. Top with steamed milk of your choice, stirring as you pour

Zuma powder	Number of mini scoops
Turmeric	2
Matcha	1
Beetroot	1
Protein	3

Zuma Protein powder works well added to drinks, rather than a drink on its own. Use with Zuma Organic Hot Chocolate for an on trend Super Hot Chocolate or add two scoops to milkshakes for a malty taste.

MELLOW

yellow

We were proudly given a Specialty Coffee Association award for our Turmeric chai. With subtle notes of orange, ginger and vanilla it's more than just a pretty drink...

Turmeric has been part of Ayurveda medicine for hundreds of years, used by yoga practitioners who say it helps with supple joints. Some suggest it improves skin tone and it even alleviates the common cold. We recommend you do some internet research on the subject and you will see why we are so happy to see this drink appearing on so many high street menus over the last few years.

Turmeric is a herbal root, related to the ginger family and is commonly used in Asian and Middle Eastern cooking. It is also the key ingredient in the century old drink 'Haldi Doodh', also known as "Golden Milk", given to children in India at bedtime. The stunning yellow of the root makes for an impressively bright blend, whether as a latte, or served as an early morning shot mixed with espresso.

A spoonful of neat turmeric each day may be reputed to do you the world of good but it can be a little, shall we say, challenging to the palette (take our word for it, we tried!). Which is why we have created a delicious Zuma Turmeric Chai. Our recipe includes the tastes of ginger, vanilla and orange, giving balance to the all glowing turmeric. It is approved by The Vegan Society and is delicious with coconut milk, as well as regular dairy.

comfort

Offering comfort and a sense of Hygge our choice of two chai suit those looking for calming comfort or something a little more spicy...

Chai is India's national drink - it's loved in every home, sold on every street and served in every shop. Many years ago we travelled to India and tried lots of variations to be sure our Zuma chai stays true to the chai we tasted on our travels.

Zuma Spiced and Vanilla chai are both made with real black tea extract and the perfect balance of spices. Just one scoop of either, combined with steamed milk makes a silky smooth chai latte. Lightly dust with cinnamon for the perfect finish. As they are both approved by The Vegan Society they can be made with any milk alternatives and served to customers choosing a vegan diet. We love using coconut milk with the spiced chai, balancing the mild spices with the creamy milk. Soya and oat milk work really well with the vanilla chai, complimenting the vanilla and spices.

Zuma Chai's are no different when it comes to being versatile. They can be used in cold as well as hot drinks, as easy as an iced chai latte, or blended with other flavours, such as chocolate for a spiced chocolate frappé.

TASTES OF THE WORLD

With holidays out of the question for many people this year, tastes from far flung places are appearing on dining tables everywhere. From a huge increase in Middle Eastern inspired flavours to a new understanding of regional Asian dishes adding new flavours to your winter menu will add some flair and flavour.

The Spice Trail

SAUCE

sweetness

Sauces really come into their element during winter – rich and gooey they can go on or in hundreds of drinks throughout the season.

New Zuma Salted Caramel sauce balances salt, to stimulate bitter and sour receptors, and sweet, to awaken taste buds. Use in, or on, hot and cold drinks to add this modern classic to menus. Two pumps in a hot chocolate take Millionaires Hot Chocolates beyond the everyday, while Salted Caramel Frappés add a twist to the traditional recipe. A drizzle on top of whipped cream on either of these drinks adds the perfect finish. Available in three other flavours, Dark Chocolate, Caramel and White Chocolate, Zuma sauces can be added to hot and cold drinks for extra depth of flavour, or used to dress drinks for the perfect Instagram ready finish.

Rich, dark and very versatile Zuma Dark Chocolate sauce is thick, rich and delicious in all kinds of drinks – from hot chocolates and mochas, to frappés and milkshakes. With no artificial colours it can be used in all your vegan serves too as it is approved by The Vegan Society.

For a buttery toffee taste Zuma's rich and golden Caramel sauce makes all sorts of drinks delicious. Add two pumps to a Sweetbird Vanilla Bean frappé, top with whipped cream for a festival ready frappé.

Zuma White Chocolate sauce makes a great white hot chocolate. Needing just two pumps for a 12oz drink this is a highly profitable serve too and the perfect ingredient in a Spanish latte.

Why choose Zuma Sauce?

- **No artificial colours**
- **No high fructose corn syrup**
- **Caramel, Salted Caramel and White Chocolate approved by The Vegetarian Society**
- **Dark Chocolate sauce approved by The Vegan Society**

SPANISH SIPS

We love finding out about global coffee trends (you can find a recipe for our version of a lighter Korean Dalgona on page 73). This winter we are all about the oh so sweet Spanish latte, or Café con Leche. Traditionally made with a 1:1 ratio of dark roasted espresso to hot milk, the Cuban variation (a Havana latte) uses condensed milk, similar to Vietnamese coffee, Ca Phe Sua. In Spain milk is scalded rather than just heated but we can sense baristas twitching at the very thought so we will leave the heat of the milk to personal taste! Our spin on the classic Spanish recipe uses Zuma White Chocolate sauce to add texture and sweetness.

Zuma Spanish Latte

- 2 pumps White Chocolate sauce
 - Double espresso
 - Steamed milk
1. Combine espresso and sauce in a cup
 2. Top with steamed milk, stirring as you pour

DRESSINGS

for drinks

There is no better time to go over the top fancy and all out on seasonal specials than autumn and winter with its many holiday and special days.

TOPPINGS & SHAKERS

Triple Chocolate Crispies

White, milk and plain chocolate coated balls for your hot chocolates, or any other delicious chocolate or coffee creations.

Golden Balls

Gold and chocolate coated crunchy, malty balls of fun. So very festive and also great for Valentines and St Patrick's Days.

Toffee Crunch

Deliciously crunchy toffee pieces; work perfectly with caramel or toffee recipes, hot or cold. Ideal for Bonfire night and Halloween.

Mini Rainbow Chocolate Beans

Add some fun to your drinks with these bright colourful rainbow beans, or serve on the side of a babyccino.

Mini Marshmallows

Little clouds of soft white marshmallows, loved by kids and adults (150g bag not shown). Keep in a jar on the counter to encourage sales.

Zuma Gold Dust

The tinsel of toppings, is a simple blend of sugar, cocoa and edible gold powder, adding a golden sheen to any steamed milk drink. Free from any artificial flavours or preservatives it's registered by The Vegan Society so can happily be used on any hot drinks with steamed milk of any kind.

Zuma Hot Chocolate Shaker

This simple blend is the perfect combination and has been developed for better sprinkability. Use to decorate cappuccinos, mochas and hot chocolates or with stencils to create a signature style for your drinks. The blend melts beautifully into steamed milk to create a rich chocolatey coating to all your hot drinks.

HOME FROM HOME

These pots and shakers are great for after sales too – keep a few by the till for customers who want to take a little taste of Zuma home or give as a gift. Offer with a bottle of new Sweetbird at Home syrups (see page 40) for the perfect gift set.

CREAM PLUS

A whipped cream cannister can make all the difference to your seasonal drinks menu. Add a delicious flavoured topping made with the same flavours used in the drink, or use complimentary flavours to add depth. It works with any syrup or sauce so get creative with it.

CHOCOLATE WHIPPED CREAM

- 400ml whipping cream
 - 6 pumps Dark Chocolate sauce
1. Add whipping cream to whipped cream cannister
 2. Add sauce
 3. Shake cannister to activate the charger

TRIPLE CHOC HOT CHOCOLATE

- Triple Chocolate Crispies
- Chocolate Sauce
- Gold Dust

DOUBLE TOFFEE FRAPPÉ

- Salted Caramel Sauce
- Toffee Crunch
- Golden Balls

RAINBOW MILKSHAKE

- Rainbow Chocolate Beans
- Mini Marshmallows
- Strawberry Purée

ahead of the TIMES

Viva Sara was founded by brothers Bart and Peter Deprez in Kortrijk, Belgium. They have two beautifully designed coffee shops, along with a pop-up retail store where you can find their range of organic premium roasted coffee, blended teas and on trend recipes using Sweetbird and Zuma.

VIVA SARA
COFFEE AND TEA

With a wide range of confectionery on offer and freshly baked pastries, we would recommend a visit on your next trip to Belgium to experience some great service and inspiring tastes. We caught up with Bart to find out a little more about their business.

How did you discover Beyond the Bean, Sweetbird and Zuma?

We were looking for a new partner for syrups. I saw their booth and range at multiple trade shows/events and was always amazed with the flavours and recipes that I tasted. Since we started our collaboration in 2017 we can now offer unique flavours, we are able to offer added value in creativity and margins for our customers. An important change is that our sales team is selling a product they believe in, before they were selling an item where

the price was the most important. It gives them more satisfaction when they have a new customer. We mainly focus on the syrup range but also Sweetbird frappés and Zuma chai. Our best-selling products are Speculoos syrup and Zuma chai.

How has Covid affected your drinks offer?

We've not really been affected by Covid but I see that some products gained some interest than before. The Zuma range and Sweetbird smoothies are more in demand than before.

Wherever you are in the world, you're sure to be able to source Sweetbird and Zuma. We export to over 50 countries and look forward to welcoming more partners to the Beyond the Bean global family.

THE GOOD SCOOP GUIDE

All powdered Zuma, Sweetbird and Cosy products have been developed to use with accurate portion scoops for good measures. This means customers are guaranteed the same taste every time they order, staff consistently and easily make the drinks, and, most importantly, the cost to your business for each serve can be calculated and maintained. There are four scoops, all with their size embossed on the base for easy identification. All recipes are 12oz drinks unless stated otherwise. Make instructions, along with the scoop size, can be found on all product packaging.

CARE FOR YOUR SYRUP PUMP

Sweetbird syrups are free from artificial preservatives, (apart from our hazelnut, toffee nut and sugar-free syrups). They are heat pasteurised at point of production to ensure their unopened shelf life. This means they need some extra care for the best results.

- To keep the syrup in good condition and to minimise the risk of contamination keep the bottle sealed at all times. You can do this using the lid or a Sweetbird pump.
 - Used bottles and pumps can be recycled where facilities exist once they are finished with.
 - While we recommend replacing the pumps after six uses, we're as conscious as you are about the environmental perspective, so you may wish to continue to use them by following the cleaning steps. Dismantling of the pump is not recommended.
1. Remove pump from product.
 2. Thoroughly hand wash the pump in warm water containing mild detergent. It is not recommended to use a dishwasher.
 3. Place the base of the pump into water and pump it rapidly for about 30 pumps.
 4. Repeat with warm water to rinse.
 5. Allow the pump to dry thoroughly ensuring any remaining water is drained from the suction pipe and head.

THE GOOD BLENDING GUIDE

HOW TO USE AND LOAD YOUR JAR

- First, fill your glass with ice
- Pour your liquids (milk, smoothie, water) into the glass
- Pour all of this into the blender jar
- Add your flavours - syrups, purée, sauce
- Then add any solids - frappé powder, fruit...
- Blend on the setting best suited to the drink

GENERAL CARE AND CLEANING TIPS

- Do not use abrasives to clean the blender motor base, jar, or sound enclosure as this will dull or scratch the surface.
- NEVER submerge the blender motor base in water
 - THIS WILL VOID THE WARRANTY.
- Do not place jar onto motor base when the motor is spinning. This causes the drive shaft on to the jar to wear prematurely.

HOW TO CLEAN YOUR BLENDER JAR

- Add 1 scoop/tsp of Cafetto Polar Clean to 500ml water in a blender jar.
- Stir well to dissolve
- Run a blend cycle for 30 seconds
- Leave to soak for 10 minutes
- For heavier staining, increase soak time
- For sanitation, ensure a 1 hour soak time
- Empty & rinse well to ensure all product is removed

ALSO...

- Make sure the lid is on securely.
- The lids are designed for a very snug fit. Give the corners an extra press.
- Place the blender jar on the blender base, making sure the drive shaft is seated completely in the drive socket of motor base.

SWEETBIRD®
BRISTOL ENGLAND

Best of BRITISH

Where products come from, and what goes in them is key to answering customers growing interest in their well-being, and that of the planet.

With over 50 delicious syrups in six varieties: Classic, Creative, Fruit, Iced Tea, Lemonade and Sugar-free, there's a Sweetbird syrup for every customer and season. From traditional flavours like vanilla, butterscotch and caramel to dessert-inspired confections, we mix creativity with versatility so you can make hot, cold and ice-blended drinks that your customers will love.

All of our syrups are approved by The Vegan Society so make the perfect ingredient to use with milk alternatives for hundreds of tasty vegan friendly recipes from lattes to milkshakes and frappés. All of our syrups are made in Bristol, UK, at our very own syrup plant. They are all made with British sugar, other than the sugar-free and cane sugar syrup of course. Our bottles come from across the bridge in Wales, and our labels are printed locally too. By supporting Sweetbird you're supporting several independent British businesses, and we couldn't be more proud to say that.

LESS SYRUP MORE FLAVOUR

Sweetbird syrups have been created with care and consideration for our customers using them. One of the many benefits is that less syrup is needed to deliver exceptional flavour. Sweetbird syrups pumps deliver 8ml of syrup per pump, compared to other syrups on the market which generally use 10ml pumps. This may not seem like much of a difference but those 2ml soon add up! To put it in context, per 1 litre bottle this equals an **extra 12 lattes**, **8 extra iced teas**, or **6 extra lemonades** - all based on the recommended serving size. Using less product all helps towards less waste; good for the planet and more profit for you and your business.

Do you know our syrups have colour coded labels for each category. Each label has a unique hand drawn illustration of the flavour too.

AUTUMN
menu flavours

It all started in 2003, when Starbucks released its first ever pumpkin spice latte. Today, the flavour is everywhere, from lip balm to vodka (yes, really) and shows why seasonal specials have staying power.

Constantly keeping up with trends, offering new seasonal specials and having to add new product lines is an operational challenge we understand and want to help avoid. By being thrifty, and using less ingredients across more drinks (as the current trend for environmental thriftiness encourages) menus can stay fresh without extra investment and upheaval.

Pumpkin Spice season may now last all Autumn (not just around Halloween as in the past) but the syrup will last way beyond that. Using it in a Mince Pie latte, (with toffee apple syrup used for Bonfire Night in the UK) will add a festive drink to your menu - whilst using up any surplus stock. Both these syrups can

be added to frappés and hot chocolates too. Alternatively add two pumps of pumpkin spice to apple juice and steam for a version of a Spiced Apple Steamer (our original recipe uses chai syrup). Toffee apple syrup can also be used in a Appleberry Fruit Soothie™. Simply add two pumps to 50ml raspberry and blackberry smoothie and top with hot water. This is a really profitable drink to offer late night shoppers at Christmas markets as the nights get nippy and dark.

Invite your team to get creative and come up with new recipes, offering rewards for the recipes which sells the most by the end of the promotion.

Sweetbird Creative syrups are just the ticket for seasonal specials. See page 39 for all 12 flavours. Below are our top picks for Autumn menus in 2021.

Adding a burst of rich berries and tangy citrus fruits has never been easier with Sweetbird Fruit syrups. Make the most of the trend for tastes of the past with nostalgic dessert inspired drinks.

Just two pumps of Sweetbird Fruit syrups into a hot chocolate can turn an every day drink into a seasonal special, adding value to your customers visit, and profit to your bottom line. Cherry syrup creates deep and rich Black Forest Gateau hot chocolate, whilst strawberry syrup turns a Zuma White hot chocolate into a Strawberry Kisses Snowball hot chocolate. Adding banana to sticky toffee frappé powder and steamed milk makes for a delicious Banoffee Happe™. Made with real fruit juice, in Bristol, Sweetbird fruit syrups are vegan approved and free from artificial colours and preservatives.

Taking the biscuit

Our Speculoos syrup works with these fruit syrups to add a biscuit base to 'cheesecake' and 'pie' recipes. Sweetbird's take on the biscuits in syrup form is made in Bristol with wonderfully caramelised biscuit notes and real cinnamon spice. You'll love how this syrup works as an easy flavoured latte or hot chocolate. We love using it to make Key Lime Pie and Lemon Meringue Pie frappés too.

JUST DESSERTS

The Sweetbird Fruit syrup collection is bursting with flavour. All made with real fruit juice these syrups can be used bring nostalgic desserts to winter menus - cherry Bakewell steamers, strawberry trifle frappés and raspberry kisses hot chocolates.

PERFECTLY

profitable

At the heart of the Sweetbird collection is simplicity and profitability. Nowhere is this more apparent than with Lemonade and Iced Tea syrups.

Sweetbird Lemonade and Iced Tea syrups are incredibly quick and easy to make. Simply add the syrup to still or sparkling water, pop in some ice and you're set to serve. Made in Bristol, with real tea extract the tea syrups are free from artificial colours, GMOs and, of course, are approved by The Vegan Society.

We've squeezed the refreshing taste of summer into our specially-blended lemonade syrups. Offering traditional and modern twists on much-loved classics, the range is available in three thirst-quenching flavours that your customers will love – pink guava & lime, raspberry and pomegranate and traditional lemonade.

Sweetbird Iced Tea syrups are even more profitable, making 41 12oz drinks per one litre bottle. Available in five original iced teas, two iced green teas and now two sugar-free flavours there has never been a better time to add them to your menu.

Sweetbird fruit syrups and purées make great partners for these lemonade and iced tea syrups - add two pumps of either fruit syrup or purée to two pumps of lemonade or original iced tea syrup for your own house specials.

EASY TO REMEMBER

SWEET

not sugar

Sugar-free definitely shouldn't mean compromising on taste or quality which is why we have put so much effort into creating Sweetbird Sugar-free syrups.

Deliciously sweet yet sugar-free, we've created the Sweetbird Sugar-free syrup range so you can give customers all the taste and sweetness they crave, without the sugar.

We use sucralose and the natural sweetener stevia to provide the sweetness without using sugar. Stevia is considered a natural sweetener and is approximately 200 times sweeter than sugar. Sucralose is an artificial sweetener and is approximately 600 times sweeter than sugar, which is why it is commonly used in the absence of sugar as less can be used to achieve the same sweetness. It is also valued for having no or little bitter aftertaste which is sometimes

associated with sugar-free products. We've paired it with stevia to add another layer of lasting sweetness which is why the sweetness in our syrups lasts longer.

There's nine much-loved flavours available; from our classic top three - caramel, vanilla and hazelnut - to sunny iced teas and spicy gingerbread. Each one tastes as delicious as the original, meaning there's absolutely no need to compromise on flavour. Broaden your appeal to customers who are conscious about sugar-consumption or calories, or simply switch your syrup offering to entirely sugar-free as many of our customers have done.

WHAT THE NOG?

With recipes dating back to the 1800's eggnog is a popular hot drink served from Thanksgiving through to New Years Day in the US and Canada. Typically made with milk, cream, sugar, eggs, and brandy, rum, or whisky it's a real treat on a cold evening. Sweetbird Eggnog syrup offers a non-alcoholic, and slightly simpler way of enjoying this drink. Just two pumps into hot milk, latte or mocha for a traditionally festive tippie.

hello NOLOW

Featured drinks:
Passionfruit Bellini
Mai Thai Spritz
Salted Espresso No-tini

Consumers are putting more value in balanced and healthy lifestyles so low or alcohol free options are steadily increasing in places previously dominated by alcohol. Whether customers are cutting back or taking a break from alcohol, we have plenty of sumptuous no and low alcohol alternatives on offer.

The shifting mindset towards healthier living has led to a surge in popularity for no or low alcohol alternatives. Availability of alcoholic versions of healthy drinks, like hard seltzer (carbonated water and alcohol) and hard kombucha (alcoholic fermented cold tea) is increasing with more and more

companies launching their own versions. There is a further nod to wellness with added vitamins and proteins being added to these products. Sweetbird syrups and purées can be used for lots of NOLOW recipes offer them on your winter menu to make the most of this growing trend.

WHAT'S YOUR FLAVOURITE?

The real beauty of granitas is how simple they are to make, and how profitable. Once you have water, ice and some Sweetbird Frappé & Granita Base any number of other ingredients can be added as flavour...

1. Fruit Purée

Because Sweetbird purées are so full of fruit they add a powerful fruit burst to granitas. We love passionfruit or raspberry.

2. Say it with syrup

There are endless granita combinations using syrups. Lemonade with lime, cherry and chocolate or adding a shot of flavour to granitas with a double espresso - English toffee or butterscotch add a touch of sweetshop nostalgia.

3. Frozen Iced Tea

Sweetbird Iced Tea syrups work incredibly well in granitas - particularly the fruit based teas - whether the regular or sugar-free versions. While the green iced teas - watermelon or cucumber and mint quench even the thirstiest of thirsts.

4. Chocoholics delight

Choose from Zuma sauce or powders to the ultimate chocolate granita. Add a swirl of caramel sauce for a millionaires granita!

FRUIT MIX

WONDERFUL WATERMELON

We introduced Watermelon syrup earlier in the year and it really has become the star of 2021.

Made with real watermelon juice this ultra refreshing syrup is perfect in frozen granitas and lemonades, or simply add three pumps to sparkling water for a delicious watermelon sparkler. The real watermelon juice gives a beautiful authentic tropical aroma to be enjoyed as soon as the syrup is opened. As with all our fruit syrups our Watermelon syrup is made in Bristol, with British sugar and is, of course, vegan approved.

sparkling CLEAN

**Choose industry leading Cafetto to keep
your machine and kit clean and safe.**

Choosing the best beans possible doesn't make a difference if your machine isn't kept clean. Cafetto Evo is BFA (Biological Farmers of Australia) certified so is suitable for use in coffee machines using organic coffee, the only one of its kind.

You haven't changed your coffee beans or your grind settings and your water filter has recently been changed, so why doesn't your espresso taste quite as good as it used to?

It could be as simple as regular cleaning and maintenance of your machine. A clean machine can drastically affect the taste of your coffee.

Tips for keeping your coffee tasting great and your machine in good health:

Every day

At the end of each day back flush the machine using a product like Cafetto Evo® or Espresso Clean®.

After backflushing, clean the group head, shower screen and around the group seal with a Pallo Coffee Tool to clean away any coffee grounds left after backflushing.

Soak steam wand nozzles in hot water, then use a Pallo Steamy Wanda tool to clean inside it. Rinse and wipe clean.

Remove the drip tray, clean, rinse and wipe dry. Remove steam wand nozzles and soak in hot water with Cafetto cleaning liquid. Give the exterior of the machine a once over with a soft damp cloth and wipe dry.

Every week

For a deep clean Cafetto recommend removing shower plates etc, but speak to your machine provider for guidance before attempting.

The Cafetto cleaning collection helps with all of this:

The solution to perfectly clean blender jars and serving pumps too. The chlorine-free solution will not taint the flavour of anything it cleans, and successfully cleans anything left to soak for an hour.

EVO machine cleaner

Cafetto Evo® was the first espresso machine cleaner to be certified by an organic certification body. It's the safe, high performance cleaner for professional espresso machines using organic coffee.

Inverso milk jug cleaner

The unique Inverso formula targets and removes dried on milk residues from stainless steel milk jugs, pitchers and steam wands. Easy to use, simply soak and wipe away.

MFC Blue

This unique 3-in-1 product cleans, de-scales and sanitises. Use daily to remove milk residues from milk lines, frothers and parts on automatic espresso machines.

Tevo maxi tablets

These are the go-to, high performance, safe cleaning tablets for professional espresso machines. Cafetto Tevo is the first espresso machine cleaning tablet to be certified by an organic certification body. It's designed for all commercial espresso machines with a 3 way solenoid valve.

Grinder clean

Cafetto Grinder Clean effectively removes coffee oils, deposits and flavoured coffee odours from grinder burrs and casings.

It's not just cleaning products that help your business stay spotless, we also have a range of cleaning tools which get in places other brushes just can't reach!

Cafetto Polar cleaner

Use this simple sanitising process to prevent jugs appearing cloudy and to keep them in optimal condition. Use the measuring scoop in each tub of Cafetto Polar for accurate portion control.

absolute BEGINNER

With over 100 products in the Sweetbird and Zuma collections it can be hard to know where to start. This guide shows you how to hit the ground running from day one...

Starting a coffee business is a huge undertaking; finding the right premises and getting it ready to open, recruiting then training staff, not to mention sourcing suppliers from coffee to cleaning products. To make things easy we have hand-picked our recommended starter kit to order.

Together with coffee, these offer a full and varied hot and cold drinks menu from day one - with very little effort. The products have been chosen for their versatility. Pick and choose which of the drinks listed below you want to start with, then freshen your menu without having to change your products.

The essentials:

Syrups:

Hazelnut
Sugar-free Vanilla
Mint
Original Iced Tea
Strawberry
Lemonade

And then....

Original Hot Chocolate
Vanilla Bean Frappé
Caramel Sauce
Banana Purée

take the NEXT STEP

Once the basics are mastered for making smoothies, frappés, and all kinds of flavoured hot chocolate, coffees and lattes, the world of Sweetbird and Zuma offer even more recipe inspiration

The previous page shows how to get things started, this page shows how to take your menu to the next level with the addition of a few more products. Pick and choose from this list, in addition to those listed on the previous page, and it becomes very easy to add in seasonal specials as the holidays roll around. Be sure to list drinks on menus in a way that

is obvious as to what's in them. Whilst 'Nuts about Nuts' sounds fun, what is it?! Always list the type of drink and some description underneath. Avoid the ultimate syrup sin of 'add a shot of syrup for 30p'. Customers won't know what tastes good - offer a Caramel Latte instead and see the difference in sales.

WHY CHOOSE ZUMA

The perfect companion to the Sweetbird range, the Zuma collection of hot chocolate, plant powders, chai and sauce adds natural flavours to any menu. The four sauces can be used instead of syrups - so don't double up on caramel syrup and sauce, choose one, and pick another flavour for the other product.

blending MADE EASY

Blendtec offer everything from the entry level EZ 600 through to the revolutionary in-cup blending of the Stealth 895. With warranties included on all new blenders and jars be assured your investment will last the distance and keep you blending well into the future.

Choosing the right blender for your business is important as they can be a significant investment. Ask your Blendtec supplier for guidance on which model is right for you.

Connoisseur 825

The Connoisseur 825 boasts industry-leading power and a wide range of state-of-the-art features designed to ensure speed, consistency, and quality with each and every order.

Connoisseur 825 SpaceSaver

The Connoisseur 825 SpaceSaver is a workhorse built with longevity in mind. It's powerful and durable enough to stand up to heavy daily use, making it perfect for high-volume shops. With the same motor and programmes as the Connoisseur, the SpaceSaver does just that by having a smaller footprint, and comes without the sound enclosure, making it more suitable to back bars or where workspace is limited.

Stealth 885

The Stealth 885 combines durability, power and a wealth of exciting features. Simply put, it's the quietest and most advanced commercial blender on the planet, with an easy to clean tactile touch pad.

Stealth NBS 895

The Stealth 895 NBS combines durability, power, a tactile touch pad, and sound enclosure with innovative in-cup blending technology. Saving time, resource and money, this is the perfect blender for takeaway or mobile sites.

EZ 600

The EZ 600 is the ideal solution for businesses that want to launch a basic drink programme. The EZ 600 provides entry-level pricing without compromising the power and quality Blendtec is famous for.

Chef 600

The Chef 600 meets the unique needs of culinary chefs with its one-touch kitchen controls specifically designed for food prep. Each setting runs at a consistent speed without the varying speeds of blend cycles and can be shut off manually or automatically after 90 seconds.

IN SAFE HANDS

We have over 17 years' experience working with Blendtec, so we know a thing or two about what makes them tick. If you call you'll be able to speak to one of our team who will run through some easy trouble shooting. If that doesn't fix things don't worry, all new Blendtec blenders and jars come with warranties. This means, in the unlikely event of something not being quite right, we are on hand to help. We have a in-house blender repair centre with experts who love a challenge. As long as you look after your Blendtec, we'll look after it too.

THE LIGHTER CHOICE

Current trends show customers are balancing the fine line between wanting (and quite frankly after the last year) deserving a treat, but also being more concerned with health. The great news is, adding cold foam on top of a hot chocolate is the perfect answer to this dilemma. Cold foam can easily be flavoured to add extra interest to your chocolates.

Flavoured cold foam is a perfect addition to a hot chocolate as featured here }

magical MILK

We love showing people the magic of cold foam, seeing is believing when it comes to this incredible innovation.

The specialists at Blendtec have developed a blender jar which turns 200ml of cold skimmed milk into silky smooth, mousse-like thick foam in only 18 seconds. Whether used on its own to top iced coffees, or flavoured with any number of other ingredients. Cold foam can at present only be made with skimmed cow's milk but we know of some milk alternative companies racing to make the first vegan option!

To make cold foam

1. Pour 200ml of cold skimmed milk into to a Blendtec cold foam jar
2. Blend on 'small milkshake' setting for 18 seconds
3. Pour foam into cup or to top your latest creation

200ml will give you enough foam for a whole 12oz drink like the Strawberry Fluff on page 51. For a topping use 100ml skimmed milk.

COLD FOAM IN ACTION

French Vanilla Caffe Freddo

- 150ml cold skimmed milk
 - 2 pumps French Vanilla syrup
 - Double espresso
 - Ice
1. Combine double espresso with ice in a jar
 2. Put the skimmed milk and syrup in a cold foam jar and blend on 'small milkshake' setting for 18 seconds
 3. Half fill glass with ice then pour over cold foam
 4. Strain the espresso over the top of the cold foam

Cookies & Cream Frappé with Marshmallow Cold Foam

- Milk / ice
 - 1 scoop Cookies & Cream frappé
 - 1 pump Marshmallow syrup
1. Fill glass with ice, level to the top of the glass
 2. Pour milk over ice to 1cm below the top
 3. Pour contents of glass into blender jar
 4. Add frappé powder
 5. Put the lid on tightly then blend until smooth
 6. Make cold foam, adding syrup.
 7. Pour frappé into glass and top with cold foam

COLD FOAM

How to flavour cold foam

- Syrup - 2 pumps
- Smoothie - 30ml
- Purée - 1 pump
- Pure Plant Powders - ½ mini scoop

Ice Cold tip

Be sure to keep your milk really cold - if you're not sure it's cold enough, pop an ice cube in the jar while you blend. If the milk is too warm, it won't foam. And make sure you press the right button! We've used the smoothie setting more than once then been confused when we end up with just milk!

We've created our own lighter twist on a Dalgona coffee, the huge Korean internet coffee trend of 2020. Simply add 2-3 teaspoons of instant coffee to skimmed milk, and then make as you would cold foam. Add a pump of syrup to get the sweetness of traditional dalgona too.

bright BLENDING

Blendtec offer a range of jars and accessories to support all business needs. The coloured jars help with allergen control – avoid using dairy jars for dairy free milks by having different coloured jars for each type of milk.

BLEND, RINSE, REPEAT

The Rapid Rinse Station saves space whilst keeping jars and lids clean during busy shifts – it works equally well for steaming pitchers and shot glasses. you.

RAPID RINSE STATION

Not a jar but perfect for keeping them clean. The Rapid Rinse Station reclaims valuable counter space with its minimal form factor, and is perfect for stacking multiple Blendtec jars. Best of all, it can reduce exposure to harmful sanitisers that irritate skin and cause lost time on the job.

BIGGER, BETTER, BRIGHTER

WildSide+ Jar

An exclusive, patented square design with a fifth side and large capacity produces thicker, faster blending and shorter customer wait times. Its extra-wide base, along with a more aggressive blade nearly four inches long, has helped the WildSide+ jar to raise the bar in the commercial blending category.

Coloured Jars

(available as Fourside and Wildside+)
Coloured jars and lids make it easy for you and your employees to quickly select the right jar every time to prevent cross-contamination of allergens. Send a clear message to your customers that you care about their well-being. Choose from yellow, blue or pink.

Cold Foam Jar

Creating cold foam has never been easier. Select the Small Milkshake cycle on your blender and in 18 seconds this circular bladed jar delivers creamy smooth cold milk for hundreds of uses. See page 37 for all the cold foam information.

Fourside Jar

The FourSide jar's square shape and patented single-prong wing-tip blade create a better blending vortex to micronise ingredients. This smaller jar is perfect for eateries that sell lower volumes of blended product.

Rebel+ Wildside Jar

The same features that make Blendtec blenders the safest blenders in the world are now available for Vitamix owners. The Rebel+ Wildside jar is safer, faster, more reliable and allows for tamper-free blending. Our patented blade is 80% thicker and 30 times stronger than any blade on the market. Please note this jar is NOT compatible with Blendtec blenders.

Twister Jar

The Twister jar lets you expand your menu offerings, blending the world's thickest recipes. Nut butters, hummus, thick shakes, dressings and more, the thicker the better! Simply add ingredients and twist the lid while blending.

Families and friends coming together to celebrate the holidays will have very special meaning in 2021. Be sure to celebrate in style with this selection of joyful recipes.

Christmas is going to be HUGE in 2021 with people making up for the last 18 months. This doesn't mean spending needs to be huge though - environmental consideration will continue to be present, with eco-friendly Christmas trees and homemade edible decorations. Wrapping paper can be replaced with fabric gift wrap to avoid excess waste, this traditional Furoshiki style originating in Japan.

For Christmas drinks menus get clever using existing stock - berry smoothies, purées and syrups are great in all kinds of hot and cold chocolate drinks. Any spicy flavours work to warm up late night shoppers; in hot spiced fruit drinks such as steamed apple steamers, or soothing Zuma chai. However you celebrate, we wish all our customers a very happy, and healthy, holiday season for 2021.

RAISING the bar

Multi-award winning syrups

We're so proud of the awards we have picked up since we launched in 2017, the first being Great Taste Awards for Passionfruit and Raspberry Shrub. These were swiftly followed by a Taste of the West Awards for Watermelon, Fruit Cup, and Elderflower - not a bad haul!

Featured drinks:

Give thanks,
Feliz navidad,
Great day for a rave.

We're very proud of the syrups created for Bristol Syrup Company; the ingredient bartenders have been missing when it comes to making great cocktails.

Our syrups are made in Bristol, with a focus on authentic taste to replicate the syrups good bartenders would want to make themselves. Bartenders make great homemade syrups, but it's time consuming, especially when scaling up recipes. It's also difficult to guarantee consistency between batches and sites. Our syrups are made with a focus on authentic flavour - meaning they taste as delicious as homemade bar syrup.

Our range has been created with an understanding of what bartenders

need from the products they use. For example, we've made Simple Syrup in both 1:1 and 2:1 ratios because we know all bars have a different preference. Whilst including all the classic cocktail syrups, we've also used acidity, bitterness and vinegar in some of the range to make them more than just sweet. This makes them perfect for twists on classic cocktails or adding complexity to alcohol-free options, an increasingly growing market.

THE ALCHEMIST

"The intent of our cocktails and venues is to serve up innovative theatre – quite literally 'Theatre Served'. To make this happen every drink must look delicious, taste delicious and tell a story which puts a smile on our teams - and therefore our guests - faces. Bristol Syrup Company's products make this happen with high quality liquid and a strong local identity. You can taste the passion in the liquid, and that comes out in the drinks."
